React Fudamental

Build a few small projects, with a few simple features to get familiar with React JS

Technology
- ReactJS, CSS, React Icons, React Toast

Github
- https://github.com/dongpy78/React_Fundamental_Projects

Fast React Pizza

The application allow customers to order pizza and have it delivered to their home

Required Application
- Very simple application, where users can order one or more pizzas from a menu
- Requires no user account and no login: user just input their names before using the app
- Ordering requires just the user's name, phone number, and address
- If possible, GPS location should also be provided, to make delivery easier
- Payments are made on delivery, so no payment processing is necessary in the app

Technology
- ReactJS, React Router, tailwindcss, Redux
